SEND and Gifted & Talented

Teaching staff regularly support SEND children and stretch Gifted and Talented children throughout their lessons which is outlined on planning documents across the school.

As well as day-to-day support and challenge, thorough and robust provision is provided for pupils with additional needs and those who are identified as working towards the expected standard. Teaching staff and teaching assistants work closely together to ensure that small group work, 1:1 in class support and pre-teaching is used effectively to support pupils in plugging gaps and making accelerated progress wherever possible. Teaching Assistants use concrete and kinaesthetic approaches to support all learners and regular feedback is given to the class teacher alongside detailed GEPs and IEPs recording progress. Teaching staff regularly liaise with the Inclusion Leader and Senior Leaders during Pupil Review and Data Discussion meetings to discuss further ways to support and aid pupils.

Gifted and Talented pupils are not only stretched through activities that enable them to demonstrate their greater depth understanding of concepts in their day-to-day lessons but also have opportunities to attending inter-school competitions to work with pupils from other schools. We also offer further experiences for G&T pupils through A.I.M. High Maths days and an after school Maths Club (a Codes and Ciphers club).
