

Magic Maths Club

Mr Forwood has introduced Years 3 to 6 to 'Magic Maths'. He showed them a variety of card tricks, dice tricks and how to make a hole in a piece of A4 paper that he could step through! The children were also shown a basic Pigpen Cipher which they loved.

Miss Edmunds and Mrs Harnett-Fuller were even invited to one session for the children to try out the tricks on them.

"We got to try out our Magic Maths tricks on some adults."

"It was really good to learn new tricks and show them to others."

"Magic Maths isn't really about Maths, it is mostly Magic!"

"Mr Forwood even dressed up for us in the last session."
