

## **SEND and Gifted & Talented**

At Birchington CE Primary School, staff uphold their responsibilities of supporting SEND children as well as challenging Gifted and Talented children throughout lessons. Teaching staff understand the importance of using assessment to consider where a child's learning is at and where their next step is, and use teacher assessment in class to make this judgement.

Teaching staff work closely alongside teaching assistants to ensure effective provision is in place to support pupils, whether that is through support such as group or individual. Teaching staff and assistants adapt their teaching styles (including visual and kinaesthetic approaches) in order to support all learners.

If pupils have a secure understanding of the content in a lesson, enrichment tasks are also planned. These tasks are designed to broaden and enhance the learning in the lesson, and allow pupils the opportunity to further their skills and knowledge.

Teaching staff regularly liaise with the Inclusion Leader and Senior Leaders during Pupil Review and Data Progress meetings to discuss ways to support individuals.
