

Arts and Spirituality Week 2020-21

On Monday 24th May 2021 we enjoyed our Arts and Spirituality Week. During this exciting time the children had the opportunity to engage in a number of creative activities.

Each class completed two large pieces of art. One will be a board that will enhance our outside Peace Spiral. These boards were specially designed to be placed directly into the soil bordering the spiral path. They were painted with acrylics and displayed scenes from the natural world.

The other piece of artwork was a rectangular board which will be used to decorate indoor areas around our school. These boards each included a chosen phrase linked to spirituality or well-being.

Throughout the week the children also explored our Christian Values of Hope, Peace, Forgiveness and Love through a range of subjects including Art, Music, Dance and Drama.

Everyone had a fantastic time and created art work that will be enjoyed by pupils, staff, parents, carers and visitors for many years to come.

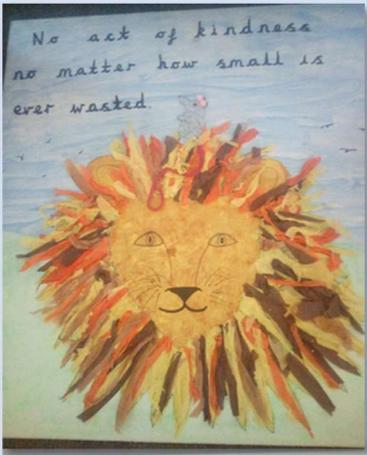

Hope is

Hope is the great name that I receive
To help me get the dream / want to receive
Hope is something I believe
that I believe in and I receive

Hope is happiness
when you win
Hope is the joy
with the help of a hope crowd

Hope is something which is your love
Hope is something you can give
When you smile Hope comes to you
When you're happy you get of hope

Hope is your greatest thing
When your hopes get into a sleeping baby
Hope is your friendly smile
Just as silly as a happy jolly

Hope is

Hope is a joyful smile on a person's face,
it's like solving a good case.
Hope is my future dream,
almost like it's my positive team.
Hope is my light on a rainy day,
but I can say,
"Hope is what I need to survive,
I can't just leave!"
Hope is the key of dreams,
sometimes it can be as a team.
So take my word,
and make it heard.
