

## Trips and Visitors

To enrich our curriculum and provide our pupils with a range of experiences; we plan for trips out to different locations and also for visitors to come into our school.

These experiences include trips to Canterbury Cathedral, local churches and other places of worship. We have also had a number of visitors into our school. They have included leaders of both Christian churches and of other faiths too. Previous visitors have included Arch Deacon Jo and Bishop Rose, the Bishop of Dover.

Our Spirituality Representatives have attended different trips including delivery of food to our local food bank and a trip to see the Peace Doves at Rochester Cathedral.

The children always have a wonderful time and are always incredibly interested. These first-hand experiences assist them in having a real life understanding of the areas they are studying.

We have also taken children to our local beach to lay pebbles that had been decorated with special messages, including messages of peace and hope. The children held a collective prayer on the beach and then lay them in different places for visitors to find.
