## Term 4

### What will be learning this term?

In Maths, we will be learning about position and direction, and time. We will know the positions of a compass point and be able to give directions to a given point. Moving towards the end of the term we will be learning how to tell the time on the hour, half past, quarter to and past, and begin to tell the time to 5 minute intervals.

In English, we will be recapping our spelling, punctuation and grammar skills which we will then apply to a range of different writing styles. We will be practising finding and retrieving information from a text to answer a range of questions and working on our inference skills. Alongside this we will be sharing poetry by Allan Ahlberg, celebrating World Book Day and enjoying reading for pleasure at Birchington Book Club and in class.

In Science, we will be learning about living things and their habitats.

In Geography, we will be looking at where hot and cold places are, using vocabulary such as equator and identifying features of hot and cold places.

In Music, we will be learning to sing songs and play the glockenspiels as well as beginning to look at notation.

Our DT topic is 'Cooking and Nutrition' so we are excited to explore a balanced diet when designing, making and tasting our own wraps.

During RE we will learning about Salvation by exploring the big question 'Why does Easter matter to Christians?'. We will be learning about the events of Holy Week and Easter and use them to help us to answer the big question.

In PE, we will be developing our team building skills through a range of games and learning to improve our gymnastic skills too.

We will be applying some of our Maths learning from last term to our Computing lessons and learning how to create pictograms using a computer program.

In RSHE our topic is 'One World' and we will be exploring similarities and differences of children around the world.
