Term 5

What will be learning this term?

In Maths, we will be continuing to learn about time for o'clock, quarter past and quarter to, half past and five minute intervals. We will learn how to use the vocabulary for length and height, and use a range of measuring tools.

In English, we will be recapping our spelling, punctuation and grammar skills which we will then apply to a range of different writing styles. We will be practising finding and retrieving information from a text to answer a range of questions and working on our inference skills. We will be enjoying reading for pleasure at Birchington Book Club and in class.

In Science, we will be learning about plants and germination. We will be looking at the functions of the different parts of a plant and trying to germinate, and grow a plant of our own.

In History we will be looking at different explorers and learning about their achievements.

In Art we will be using clay and making pinch pots.

In RE lessons, we will be learning about Islam. The big question for Terms 5 and 6 is, 'What is Islam and how is it different to Christianity?'

In PE, we will be developing our team building skills with the sports coaches through a range of games.

In Computing, we will be learning how to program robot algorithms.

In RSHE our topic is 'Health and Well-Being'. We will be learning about online safety as well as personal boundaries relating to our bodies.
